## PEVONIA ADVANCED MANUFACTURING TECHNOLOGIES

Manufacturing Goal:

To reduce the molecular size of each emulsion while maintaining ingredient stability promoting deeper penetration, product absorption and facilitation of healthy cells.

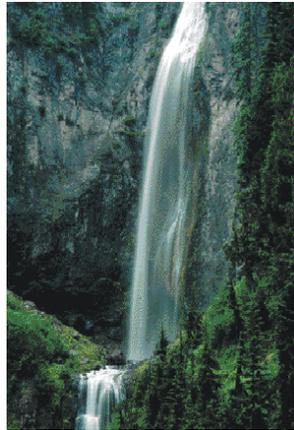

Healthy Cells = Healthy Skin

### 1. PURIFIED WATER - PHARMACEUTICAL GRADE

Most extensive purification system

- Deionized
- Filtered
- Sterilized

Free of: Minerals, Chlorine, Bacteria, Micro-organisms, Particles, Residue.

### 2. NEW FORMULA

Purified water plus active ingredients equal Emulsions

Emulsion – Suspension of liquid within another liquid (Lipophilic + Hydrophilic) + Emulsifiers

### 3. HIGH PERFORMANCE EMULSIFIERS

Emulsifiers – Agents that keep water and oil and water suspensions together without any separation

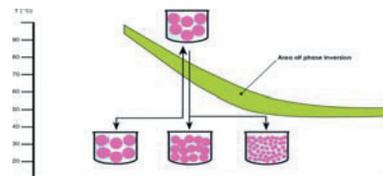

- molecules – one end hydrophilic (attracted to water) one end lipophilic (attracted to oil)

- Food grade - derived from sugars and berries

The result - Active ingredients maintaining full strength to deliver superior results.

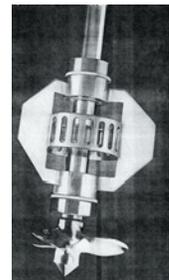

### 4. PHASE INVERSION TEMPERATURE (PIT) PROCESS

- Goal: Reduction of molecular size within the emulsions while maintaining the same constituents of the original molecule.
- A process that converts an emulsion into a Micro-emulsion. The manufacturing temperature starts at zero, slowly rising until between 70° and 75°. Then it is slowly cooled to 75°, at which one molecule is now many molecules, all possessing the same strength of the original (PIT).
- The result – A smaller molecular sized Micro-emulsion.

### 5. HIGH PRESSURE HOMOGENIZATION

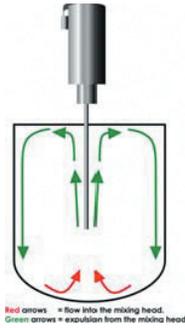

- Definition – Reducing the molecular size while distributing them evenly throughout the formula, creating an even, consistent Advanced Micro-emulsion.
- An advanced machine that consists of a propeller which rotates its contents at extremely high RPM (revolutions per minute).

- Results:
  - Deeper penetration of product
  - Full strength of all actives

## 6. HOMOGENIZATION TECHNOLOGY

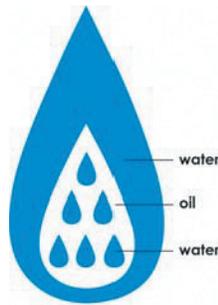

- Decrease the size of the molecular structure to create an Advanced Micro-emulsion
- 1.18 to 5 microns (diameter) in order to fit between the intercellular spaces of the skin which are 5-20 microns in size.

## 7. TRI-PHASE MICRO-EMULSION CARE CREAMS

Water – Oil – Water (W.O.W.)

- Benefits:
  - Non limited list of actives forbids separation
  - Less product needed
  - Extra Hydration with longer results
  - Light texture with velvet consistency

- How it works

External Phase – keeps outer layers of epidermis hydrated

Internal Phase – accepted by lipid-loving factors breaks down then releases

Extra Internal Phase – release water molecule within the skin's structure

## 8. SPHÉRULITES TECHNOLOGY – A HIGH-TECH ULTRA EFFECTIVE DELIVERY SYSTEM

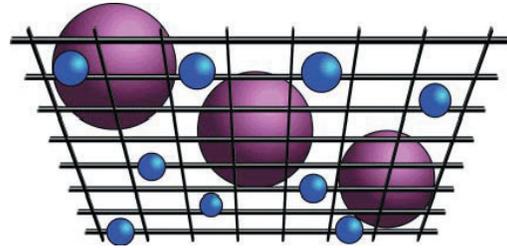

Sphérulite

Electronic microscopy of a cryofracture of a Sphérulite

- Sphérulites: 1 micron for penetration Multi-lamellae with soybean oil tensioactive membranes.
- Products – Eye, Lip & Enzymes
- Liposome's – unstable active 1 year collapses
- Sphérulites – stability of multi-actives 3 years body temp and/or pressure

## 9. SPHÉRULITES TECHNOLOGY DELIVERY SYSTEM

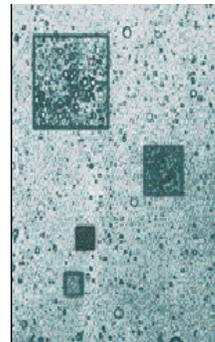

- Microscopic Spheres
- Multi-lamellae
- Time Released Active Ingredients

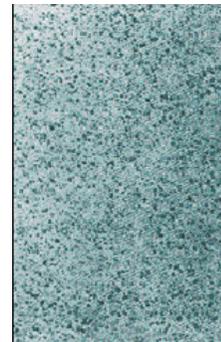

## 10. TRI-PHASE MICRO-EMULSION ABSORBENCY

- Physical and botanical stability
- Optimum delivery system
- Increase of solubility with even distribution of actives between epidermal layers
- Perfectly Balanced Micro-Emulsions

## 11. ADVANCED, HIGH PERFORMING TRI-PHASE MICRO-EMULSION CARE CREAMS

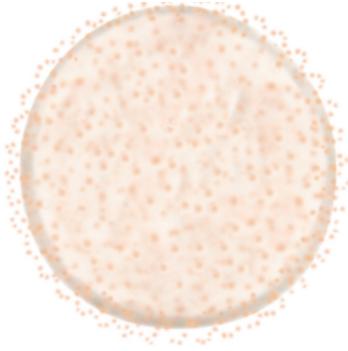

Existing Micro-emulsions

Advanced Micro-emulsions

- A product with perfect cohesion and harmony that will forbid any separation
- Greater intake for better bio-activity (granular layer)

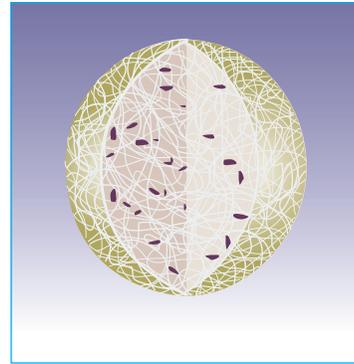

## 12. TEGOSPHERES ENCAPSULATION TECHNOLOGY

### Benefits

- Unprecedented pH-triggered release microcapsule
- Comprised of a permeable amino functional material and embedded with Retinol
- Unsurpassed for thermodynamic stability and controlled, targeted ingredient delivery
- Retains and reinforces the efficacy of Retinol delivery by more than 70% of the encapsulated Retinol

## 14. SPATEEN MICRO-MATRIX TIME-RELEASE DELIVERY SYSTEM

### Benefits

- Innovative micro-particles that entrap active ingredients for a controlled and even ingredient diffusion
- Each micro-particle entraps three times its own weight, slowly infuses skin with powerful repairing ingredients
- Maintains Organic Benzoyl Peroxide and Organic Salicylic Acid entrapped and inert until applied on skin
- Features a 12-hour time-release delivery system for slow diffusion and minimized side effects

## 13. ENZYMES FREEZE-DRIED TECHNOLOGY

### Benefits

- Combines high-performant enzymes in a revolutionary high-tech formulation
- Freezes and preserves select enzymes in an inert state for maximum activity and efficacy
- Freeze-dried enzymes remain completely inert until dissolved in water
- Prepares skin for maximum absorbency of active ingredients

Pevonia Botanica...technologically advanced manufacturing processes for potent delivery systems and optimum skincare benefits!

## Pevonia Botanica Support Services

Pevonia International, LLC is an intricate network of specialty companies founded and structured to offer innovative product and service solutions to the spa, salon and medical industry. Pevonia International's commitment to excellence is a direct reflection of the success and growth the group has experienced over the past two decades.

The Pevonia International companies include:

**Pevonia:** Pevonia spa care line is first choice amongst the most prestigious spas and salons worldwide. The line offers over 250 botanical products and treatments containing the latest ingredient discoveries in the most precise and effective result-producing formulations. Pevonia's technologically-advanced products contain nature's richest, most potent resources for nurturing, rejuvenating and restoring the skin's natural beauty. Pevonia's enlightening tri-phase educational programs (technical, clinical and business) and extensive training schedules ensure professional performance with utmost treatment precision and impeccable expertise. Pevonia...outstanding results for every skin type.

**Spalassium by Pevonia:** The Spalassium Scents of Well Being Collection offers organic essential oils, spa-quality natural massage oils, natural aromatherapy candles, and natural olive-oil based soaps from Provence. Spalassium SpAmenity offers spa-quality shampoo, conditioner, shower gel, and body moisturizer for increased retail sales. Spalassium Vital-I-Tea includes a delightful collection of four holistic gourmet tea blends for enhancing the spa guest experience. Spalassium sets the perfect ambiance of wellness, peace and serenity for the spa, salon and home environment. Spalassium... the ultimate path to sublime, therapeutic relaxation.

**Sylvie Hennessy Academy of Esthetics & Spa Therapies:** Renowned international educator and creator of Pevonia and Medicalia Clinical Skincare, Sylvie Hennessy, established the Sylvie Hennessy Academy concept. The Academy offers outstanding continuous professional education via an advanced post-graduate program at national and international educational centers. The Academy also offers a specialty seminar program to heighten the skincare specialist's educational horizon. It is an ideal source for any professional seeking to further increase their product and treatment knowledge and perfect their treatment techniques.

**Cosmopro Shop:** A complete selection of skincare accessories as well as salon and spa accessories. From robes to slippers, sponges, spatulas, wax, paraffin and more, your demand for quality accessories is professionally and completely met. Cosmopro Shop provides exceptional customer service excellence to ensure reliability and cost effectiveness.
